

# **SAFETY DATA SHEET**

This safety data sheet complies with the requirements of: OSHA Hazard Communication Standard (29 CFR 1910.1200)

Product Name: Idemitsu Full Synthetic Engine Oil 5W-30 GF-6, Revision Date: 13-Mar-2020

12x1 Quart

Product Code: 30013015-75000C020 Revision Number: 1

1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE

COMPANY/UNDERTAKING

1.1 Product identifier

Product Name: Idemitsu Full Synthetic Engine Oil 5W-30 GF-6, 12x1 Quart

Other means of identification

**Product Code:** 30013015-75000C020

1.2 Recommended use of the chemical and restrictions on use

Recommended Use: Automotive Lubricant

1.3 Details of the supplier of the safety data sheet

Manufactured by: Idemitsu Lubricants America Corporation

701 Port Rd., Jeffersonville, IN. 47130

Email: sds@ilacorp.com

**24 Hour Emergency Phone Number:** Within USA and Canada: 1 800-424-9300

Outside USA and Canada: + 1 703-741-5970

(collect calls accepted)

Revision Date: 13-Mar-2020

# 2. HAZARDS IDENTIFICATION

# 2.1 Classification

This chemical is not considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200).

#### 2.2 Label elements

Not a dangerous substance or mixture according to the Globally Harmonized System (GHS)

Hazards not otherwise classified (HNOC)

Not applicable

2.3 Other information

Other hazards No information available

# 3. COMPOSITION/INFORMATION ON INGREDIENTS

#### 3.1 Substances

Not applicable

#### 3.2 Mixture

The product contains no substances which at their given concentration, are considered to be hazardous to health.

# **Non-Hazardous Components**

Chemical name	CAS-No	weight-%
Lubricating Base Stocks	Mixture	90-100

Product containing mineral oil with less than 3% DMSO extract as measured by IP 346

# 4. FIRST AID MEASURES

#### 4.1 First Aid Measures

General Advice If symptoms persist, call a physician. Take a copy of the Safety Data Sheet when going for

medical treatment.

Skin Contact Wash off immediately with soap and plenty of water while removing all contaminated

clothes and shoes. If skin irritation persists, call a physician.

Eye Contact Immediately flush with plenty of water. After initial flushing, remove any contact lenses and

continue flushing for at least 15 minutes. Keep eye wide open while rinsing. If eye irritation

persists: Get medical advice or attention.

**Inhalation** Move to fresh air in case of accidental inhalation of vapors. If breathing is difficult, give

oxygen. If not breathing, give artificial respiration. Immediate medical attention is required.

**Ingestion** Do not induce vomiting without medical advice. If vomiting occurs naturally, have casualty

lean forward to reduce the risk of aspiration. If symptoms persist, call a physician.

·

4.2 Most important symptoms and effects, both acute and delayed

**Symptoms** See Section 11 for additional Toxicological information.

4.3 Indication of any immediate medical attention and special treatment needed

Notes to Physician Treat symptomatically.

# FIRE-FIGHTING MEASURES

Flammable Properties NFPA: Class IIIB Combustible Liquid

5.1 Suitable extinguishing media Use extinguishing measures that are appropriate to local

circumstances and the surrounding environment

Unsuitable Extinguishing Media: Do not use a solid water stream as it may scatter and spread fire.

5.2 Specific Hazards Arising from the Chemical Keep product and empty container away from heat and sources

of ignition.

Hazardous combustion products

During a fire, smoke may contain the original material in addition

to combustion products of varying composition which may be toxic and / or irritating. Combustion products may include and

Revision Date: 13-Mar-2020

are not limited to: Carbon oxides Sulphur oxides Oxides of Phosphorus Nitrogen oxides (NOx) Metal Oxides

5.3 Protective Equipment and Precautions for Firefighters:

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and

full protective gear.

# 6. ACCIDENTAL RELEASE MEASURES

#### 6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions Avoid contact with eyes, skin and clothing. Avoid breathing vapors or mists. Use personal

protection recommended in Section 8. Ensure adequate ventilation. Remove all sources of

ignition.

**6.2. Environmental precautions** 

**Environmental Precautions** Large Spills: Dike far ahead of liquid spill for later recovery and disposal. Prevent entry into

waterways, sewers, basements or confined areas.

6.3 Methods and material for containment and cleaning up

Methods for Clean-up Contain and collect spillage with non-combustible absorbent material, (e.g. sand, earth,

diatomaceus earth, vermiculite) and place in container for disposal according to local /

national regulations (see section 13).

Spill Management

**LARGE SPILLS** Eliminate sources of ignition. Prevent additional discharge of material if possible to do so

without hazard. For small spills implement cleanup procedures; for large spills implement

cleanup procedures and, if in public area, keep public away and advise authorities.

**WATER SPILLS** 

Prevent liquid entering sewers, watercourses, or low areas. Contain spilled liquid with sand or earth. Recover by pumping or with suitable absorbent. If liquid is too viscous for pumping, scrape up. Consult an expert on disposal of recovered material and ensure conformity to local disposal regulations.

#### 7. HANDLING AND STORAGE

#### 7.1. Precautions for safe handling

Handling Do not breathe vapors, spray, or mist. Avoid contact with eyes,

skin and clothing. Use personal protection recommended in the SDS. Remove and wash contaminated clothing before re-use. Keep away from open flames, hot surfaces and sources of

Revision Date: 13-Mar-2020

ignition.

Safe Handling Advice Handle in accordance with good industrial hygiene and safety

practices. Take precautionary measures against static

discharges.

# 7.2. Conditions for safe storage, including any incompatibilities

Storage Keep in properly labeled containers. Keep container tightly closed

in a dry and well-ventilated place.

**Technical measures/Precautions**Ensure adequate ventilation.

# 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

#### 8.1. Control parameters

#### **Exposure Guidelines**

Chemical name	OSHA PEL	ACGIH TLV	ACGIH OEL (STEL)	NIOSHT REL TWA	ILA IHG	ILA ROEG	ILA Internal Exposure Limit
Oil mist, mineral	TWA: 5 mg/m <sup>3</sup>	TWA: 5 mg/m³		TWA 5 mg/m <sup>3</sup> ST 10 mg/m <sup>3</sup>			

#### 8.2 Exposure controls

this material (see Section 2), applicable exposure limits, job activities, and other substances in the work place when designing engineering controls and selecting personal protective equipment. If engineering controls or work practices are not adequate to prevent exposure to harmful levels of this material, the personal protective equipment listed below is recommended. The user should read and understand all instructions and limitations supplied with the equipment since protection is usually provided for a limited time or under

certain circumstances.

Personal Protective Equipment

**Eye/face protection** Safety glasses equipped with side shields are recommended as minimum protection in

industrial settings.

**Skin protection** Choose the appropriate protective clothing and gloves based on the tasks being performed

to avoid exposed skin surfaces. Glove Type: Neoprene, Nitriles

30013015-75000C020 - Idemitsu Full Synthetic Engine Oil 5W-30 GF-6, 12x1 Quart

respiratory protection should be worn. Positive-pressure supplied air respirators may be required for high airborne contaminant concentrations. Respiratory protection must be

Revision Date: 13-Mar-2020

provided in accordance with current local regulations.

General Hygiene Considerations Clean equipment, work area and clothing regularly.

# 9. PHYSICAL AND CHEMICAL PROPERTIES

#### 9.1. Information on basic physical and chemical properties

Appearance Light Brown
Physical state Liquid
Odor

Odor Not available
Odor Threshold No information available

**pH** Not applicable

Melting point / melting range Not applicable

Boiling point / boiling range No information available

Vapor densityNo information availableDensity0.85 g/cm³ @15°CSolubility(ies)No information availablePartition coefficientNo information availableAutoignition TemperatureNo information availableDecomposing TemperatureNo information available

Kinematic viscosity @40C = 55.61 cSt; @100C = 9.49 cSt

#### 9.2. Other information

DMSO extract by IP346 Less than 3.0 wt% (mineral oil component only)

# 10. STABILITY AND REACTIVITY

10.1. Reactivity

**Reactivity** The product is chemically stable.

10.2. Chemical stability

Chemical Stability Stable under recommended storage conditions.

10.3. Possibility of hazardous reactions

Possibility of Hazardous Reactions None under normal processing.

10.4. Conditions to avoid

Conditions to Avoid Heat, flames and sparks.

10.5. Incompatible materials

Incompatible Materials Strong oxidizing agents

10.6. Hazardous decomposition products

#### Hazardous decomposition products

Thermal decomposition can lead to release of irritating gases and

Revision Date: 13-Mar-2020

vapors.

# 11. TOXICOLOGICAL INFORMATION

# 11.1 Information on likely routes of exposure

Inhalation May cause irritation of respiratory tract.

Eye contact May cause slight irritation.

**Skin Contact** May cause skin irritation and/or dermatitis.

Ingestion May be harmful if swallowed.

#### 11.2 Information on toxicological effects

No information available **Symptoms** 

# 11.3 Delayed and immediate effects as well as chronic effects from short and long-term exposure

Not classified. Skin corrosion/irritation

Serious eye damage/eye

irritation

Not classified.

Sensitization Not classified.

**Mutagenic effects** Not classified.

Not classified **Reproductive Toxicity** 

Not classified. STOT - single exposure

STOT - repeated exposure Not classified

**Aspiration hazard** Not classified.

# 11.4 Carcinogenicity

Carcinogenicity: No component of this product present at levels greater than or equal to 0.1% is identified as

a known or anticipated carcinogen by NTP, IARC, OSHA or ACGIH.

NTP (National Toxicology Program), IARC (International Agency for Research on Cancer), Legend:

OSHA (Occupational Safety and Health Administration of the US Department of Labor).

ACGIH (American Conference of Governmental Industrial Hygienists)

#### 11.5 Acute Toxicity

The following values are calculated based on chapter 3.1 of the GHS document .

# **Product Information (Estimated):**

> 5,000 mg/kg ATEmix (oral) ATEmix (dermal) > 5,000 mg/kgATEmix (inhalation-dust/mist) > 5 mg/l

# 2. ECOLOGICAL INFORMATION

# 12.1 Ecotoxicity

# **Ecotoxicity effects**

No known significant effects or critical hazards. Plants and animals may experience harmful or fatal effects when coated with petroleum products. Petroleum-based (mineral) lubricating oils normally will float on water. In stagnant or slow-flowing waterways, an oil layer can cover a large surface area. As a result, this oil layer might limit or eliminate natural atmospheric oxygen transport into the water. With time, if not removed, oxygen depletion in the waterway may be sufficient to cause a fish kill or create an anaerobic environment.

**12.2 Persistence and degradability**The hydrocarbons in this material are not readily biodegradable,

but since they can be degraded by microorganisms, they are

Revision Date: 13-Mar-2020

regarded as inherently biodegradable.

12.3. Bioaccumulative potential No information available.

<u>12.4 Mobility in Environmental Media</u>

No information available.

12.5 Other adverse effects: No information available.

PBT and vPvB assessment No information available

# 13. DISPOSAL CONSIDERATIONS

Hazard characteristic and regulatory waste stream classification can change with product use. Accordingly, it is the responsibility of the user to determine the proper storage, transportation, treatment and/or disposal methodologies for spent materials and residues at the time of disposition.

Waste Disposal Method This material, as supplied, is not a hazardous waste according to Federal regulations (40

CFR 261). This material could become a hazardous waste if it is mixed with or otherwise comes in contact with a hazardous waste, if chemical additions are made to this material, or if the material is processed or otherwise altered. Consult 40 CFR 261 to determine whether the altered material is a hazardous waste. Consult the appropriate state, regional, or local

regulations for additional requirements.

**Contaminated packaging** Dispose of in accordance with local regulations.

Product containing mineral oil with less than 3% DMSO extract as measured by IP 346

# 4. FIRST AID MEASURES

#### 4.1 First Aid Measures

General Advice If symptoms persist, call a physician. Take a copy of the Safety Data Sheet when going for

medical treatment.

Skin Contact Wash off immediately with soap and plenty of water while removing all contaminated

clothes and shoes. If skin irritation persists, call a physician.

Eye Contact Immediately flush with plenty of water. After initial flushing, remove any contact lenses and

continue flushing for at least 15 minutes. Keep eye wide open while rinsing. If eye irritation

persists: Get medical advice or attention.

**Inhalation** Move to fresh air in case of accidental inhalation of vapors. If breathing is difficult, give

oxygen. If not breathing, give artificial respiration. Immediate medical attention is required.

**Ingestion** Do not induce vomiting without medical advice. If vomiting occurs naturally, have casualty

lean forward to reduce the risk of aspiration. If symptoms persist, call a physician.

,

4.2 Most important symptoms and effects, both acute and delayed

**Symptoms** See Section 11 for additional Toxicological information.

4.3 Indication of any immediate medical attention and special treatment needed

Notes to Physician Treat symptomatically.

# 5. FIRE-FIGHTING MEASURES

Flammable Properties NFPA: Class IIIB Combustible Liquid

5.1 Suitable extinguishing media

Use extinguishing measures that are appropriate to local

circumstances and the surrounding environment

Unsuitable Extinguishing Media: Do not use a solid water stream as it may scatter and spread fire.

5.2 Specific Hazards Arising from the Chemical Keep product and empty container away from heat and sources

of ignition.

Hazardous combustion products

During a fire, smoke may contain the original material in addition

to combustion products of varying composition which may be toxic and / or irritating. Combustion products may include and

Revision Date: 13-Mar-2020

are not limited to: Carbon oxides Sulphur oxides Oxides of Phosphorus Nitrogen oxides (NOx) Metal Oxides

**5.3 Protective Equipment and Precautions for Firefighters:** 

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and

full protective gear.

# 6. ACCIDENTAL RELEASE MEASURES

#### 6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions Avoid contact with eyes, skin and clothing. Avoid breathing vapors or mists. Use personal

protection recommended in Section 8. Ensure adequate ventilation. Remove all sources of

ignition.

**6.2. Environmental precautions** 

Environmental Precautions Large Spills: Dike far ahead of liquid spill for later recovery and disposal. Prevent entry into

waterways, sewers, basements or confined areas.

6.3 Methods and material for containment and cleaning up

Methods for Clean-up Contain and collect spillage with non-combustible absorbent material, (e.g. sand, earth,

diatomaceus earth, vermiculite) and place in container for disposal according to local /

national regulations (see section 13).

Spill Management

**LARGE SPILLS** Eliminate sources of ignition. Prevent additional discharge of material if possible to do so

without hazard. For small spills implement cleanup procedures; for large spills implement

cleanup procedures and, if in public area, keep public away and advise authorities.

**WATER SPILLS** 

Prevent liquid entering sewers, watercourses, or low areas. Contain spilled liquid with sand or earth. Recover by pumping or with suitable absorbent. If liquid is too viscous for pumping, scrape up. Consult an expert on disposal of recovered material and ensure conformity to local disposal regulations.

#### HANDLING AND STORAGE

#### 7.1. Precautions for safe handling

Handling Do not breathe vapors, spray, or mist. Avoid contact with eyes,

skin and clothing. Use personal protection recommended in the SDS. Remove and wash contaminated clothing before re-use. Keep away from open flames, hot surfaces and sources of

Revision Date: 13-Mar-2020

ignition.

Safe Handling Advice Handle in accordance with good industrial hygiene and safety

practices. Take precautionary measures against static

discharges.

# 7.2. Conditions for safe storage, including any incompatibilities

Storage Keep in properly labeled containers. Keep container tightly closed

in a dry and well-ventilated place.

**Technical measures/Precautions**Ensure adequate ventilation.

# 13. DISPOSAL CONSIDERATIONS

Hazard characteristic and regulatory waste stream classification can change with product use. Accordingly, it is the responsibility of the user to determine the proper storage, transportation, treatment and/or disposal methodologies for spent materials and residues at the time of disposition.

Waste Disposal Method This material, as supplied, is not a hazardous waste according to Federal regulations (40

CFR 261). This material could become a hazardous waste if it is mixed with or otherwise comes in contact with a hazardous waste, if chemical additions are made to this material, or if the material is processed or otherwise altered. Consult 40 CFR 261 to determine whether the altered material is a hazardous waste. Consult the appropriate state, regional, or local

regulations for additional requirements.

**Contaminated packaging** Dispose of in accordance with local regulations.
